

STATEMENT OF SUBSTANCE OF INTERVIEW

Initially, Applicant wishes to thank the Examiner for conducting a telephone interview with Applicant's Representatives, Dave Divine and Jacob Rohwer on August 16, 2007.

During the interview, Applicant's Representatives discussed the objections to the claims and the rejections under § 103. Without conceding the propriety of these rejections, and in the interest of expediting allowance of the application, Applicant's Representatives discussed some possible claim amendments to clarify that the first object oriented language source code is associated with a framework developed for use with a predetermined object oriented programming language that compiles source code into non-language-neutral bytecodes.

The Examiner was receptive to the proposed claim amendments, but asked that the amendments be presented in writing.

Applicant herein amends each of the independent claims as discussed during the interview. Accordingly, the pending claims are believed to be allowable for at least the reasons discussed below.
